Description

Heated display case with circulating air heating for keeping meat products warm. For optimal product quality, the humidity is adjustable in 6 steps. The steam generator operates fully automatically and includes a tank/pump system for automatic water filling. Good illumination of the merchandise room by a temperature-resistant lighting (warm colour reproduction). All components are easily accessible for maintenance and cleaning.

Commercial product for the installation in stationary food and service counter.

Design

Interior and exterior are made entirely of stainless steel with high-temperature resistant insulation. All visible sides have a ground surface. All glass panes are made of safety glass.

The steam generator operates fully automatically and is equipped with a tank/pump system and an automatic water filling system. The water tank can be placed under the device in the counter furniture and can be easily removed for daily filling.

For cleaning, the humidifier tray of the steam generator is easy to remove. It can be cleaned in a dishwasher. The service-friendly controller can be folded down so that all test points are easily accessible.

Version "Tank/Pump System"

The water filling of the steam generator is made automatically via a tank/pump system. The water tank can be placed under the device in the counter furniture and can be easily removed for daily filling. Delivery includes water tank with pump system.

Version "Fixed Water Connection"

The device is equipped with a drain (connection 1 1/4" external thread) and a solenoid valve (3/4" external thread). Delivery includes water connecting hose 1.5 m; 3/4" for the connection to an on-site water tap. The drain must be connected by the customer via drain trap and funnel outlet.

Version size 1 (one display area for merchandise)

The heating is made by a powerful large-area heating plate and a powerful quartz radiator with medium and long-wave infrared radiation. The heating plate can be easily folded up for cleaning the interior and is self-holding in the open position. Good illumination by a temperature-resistant LED lighting. Particularly easy cleaning of the components in the dishwasher, because the guide rails and the ventilation grille can be removed. The pullout is equipped with a large insulated handle and a safety device to prevent it from being pulled out completely. **Keep warm temperature > 65°C (at room temperature > 20°C).** Basic heat, infrared heat and humidification can each be adjusted in 6 steps.

Version size 1.5 (two display areas for merchandise)

The heating is made by a powerful circulating air blower. The upper cover plate can be easily folded up for cleaning the interior and is self-holding in the open position. **Temperature adjustable from 40°C to 75°C.**
