WIHA Refrigerated Display Cases

Huge selection for almost all scopes

FrontSeller XL

Bottle cooler with bottle slide

The pulled-out drawer on operator's side allows a quick and easy refill with bottles.

Fan-assisted (circulating air) bottle cooler FrontSeller XL

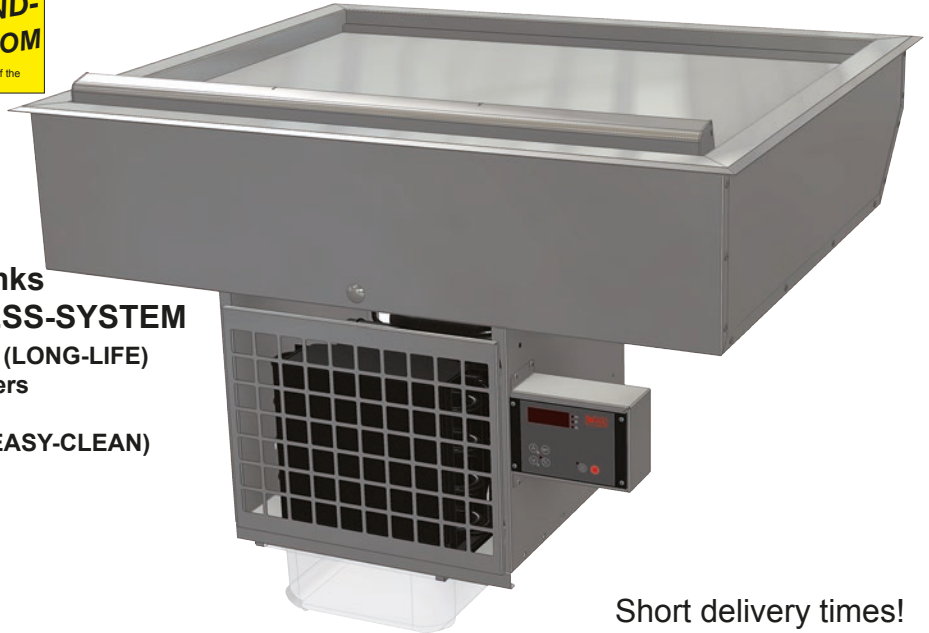

- Optimal presentation of the beverages on a bottle slide (first in – first-out)
- Outstanding capacity of approx. 150 bottles
- Individual adjustable divider bars (3,5 mm grid)
- Highly luminous lighting track
- Simple refill from operator's side
- Liftable evaporator for an easy and fast cleaning
- Highly effective refrigeration due to air curtain technology
- Comfortable digital temperature and defrosting controller

The 3.5mm grid of the merchandise display enables the adjustment of the divider bars to match the size of the bottles.

The WIHA Bäcker-Snack

- Extra-large evaporator
- 4°C cooling technology
- 2 air speeds
- Lifiable evaporator
- Service friendly
- Separate mounting frame
- Durable Papst ventilators
- Comfortable digital temperature and defrost controller

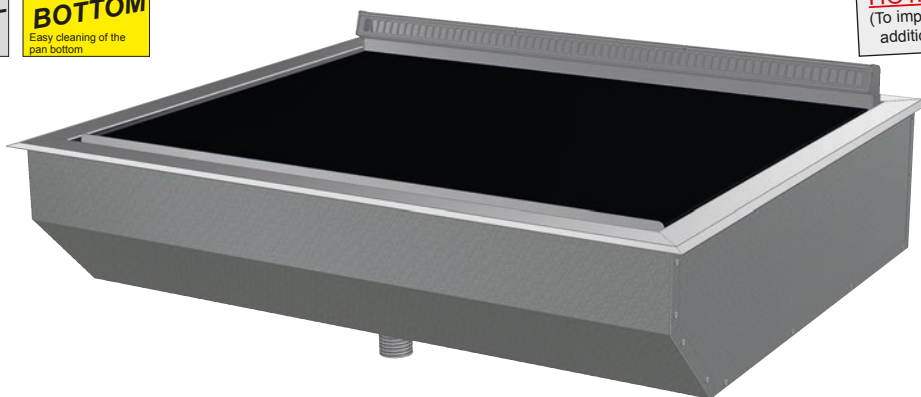

Bäcker-Snack® HOT-COLD

HOT or COLD – respond to your customers' demands!

HOT-COLD
30-75°C < 5°C

Preferred Application:
COLD: Cakes, tarts, sandwiches and snacks with a merchandise height of approx. 6 to 8 cm.
HOT: Pizza, croissants, pies, etc. (To improve the heat distribution, we recommend additional heat radiators.)

The patented **WIHA HOT-COLD-TECHNOLOGY!**

As seasons and daytimes are changing constantly, your customers' tastes vary accordingly. Maybe cold snacks throughout the day and a warm snack in the afternoon. Your counter should be as flexible as your customers are.

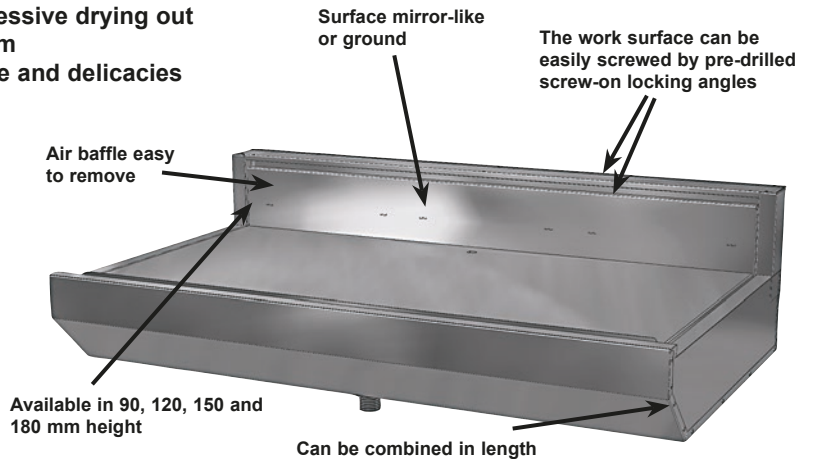

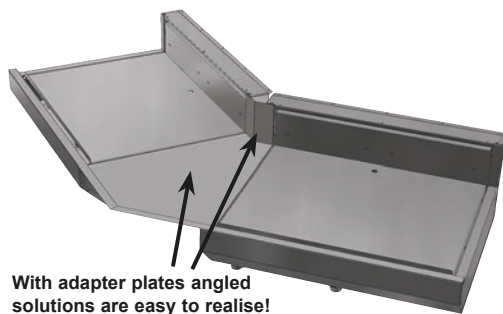

Wouldn't it be good to have a unit that offers both solutions?

The "Bäcker-Snack HOT-COLD" is the answer to this question. Its child's play to switch the operation mode from cold to hot and back!

New Tiered Refrigeration Modules SKE

Optimised for refrigeration of exposed food

- A deep cold reservoir results in excellent cooling
- A large evaporator and low air speed prevent excessive drying out
- Suitable for merchandise with a height up to 18 cm
- Optimised solutions for cakes, flans, meat, cheese and delicacies

GUSTO for a better taste!
