

WIHA Base Elements

Base Element UTB 51

Base Element UTB 51 for ready-to-use no-frost refrigerators for ventilation on the operator's side.

The base element UTB 51 is available if this is indicated on the catalogue page and if the size of the cooling is at least size GN 2 (not GN 2L) or Euro-Norm 800.

Make sure that when using the ready-to-use no-frost refrigerator, the right controller for your requirements is selected. A description of the controller can be found starting on page 383 of the catalogue.

Important installation instruction:

No laterally protruding side walls of the counter or similar surfaces must be in the area of the ventilation openings. Areas that protrude above the ventilation openings must be at a distance of at least 200 mm from the air ducts and may not be deeper than 200 mm.

Protruding areas may cause the air duct to have a short circuit. Other devices in the immediate vicinity must not give off additional warm air.

Base Element UTB 51

The base element UTB 51 can be supplied instead of the standard housing for ready-to-use air chiller units, cooling pans or closed refrigerated display cases, insofar as this is indicated on the respective catalogue page. The delivery includes a machine cover to protect the cooling unit, which can also be removed for cleaning purposes.

Placement below an air chiller unit:

The right side of the base element is mounted offset inwards by 30 mm compared to the right side of the air chiller unit (on the operator side).

The cooling pan protrudes over the level of the front panel by 15 mm on the operator side.

Placement below a cooling pan with contact pipes KW or KW-KT:

The left side of the base element is mounted flush compared to the left side of the cooling pan with contact pipes on the operator side (except for the size GN 4/1, because it must be mounted offset inwards by 30 mm).

Placement below a closed display case:

The base element is mounted flush with the right side of the refrigerated display case (on the operator side).

The cooling pan protrudes over the level of the front panel by 15 mm on the operator side.

Table Base Element UTB 51

Type	Refrigerant	Refrigerating Capacity	Width mm	Depth mm	Height mm	Art.-No.
UTB 51 - N	R290 / R454C	230 W	722	615	420	33222
UTB 51 - N	R290 / R454C	360 W	722	615	420	33223
UTB 51 - N	R290 / R454C	450 W	722	615	420	33224
UTB 51 - N	R290 / R454C	605 W	722	615	420	33225
