

3D Models by WIHA

3D visualization promotes your sales!

Visualizations awake emotions that help you to reach your customer. With integrating realistic visualizations into your CAD system, you enable your customer to have views from different perspectives at the new interior design and allow him a better imagination and identification with your results. This way, sales negotiations will be facilitated!

It is our declared goal to assist you with the realistic presentation of the cooling technology.

More than 4.000 WIHA products now available in 3D!

All 3D files are now available for download at www.wiha-web.com – ready for the integration in your visualization!

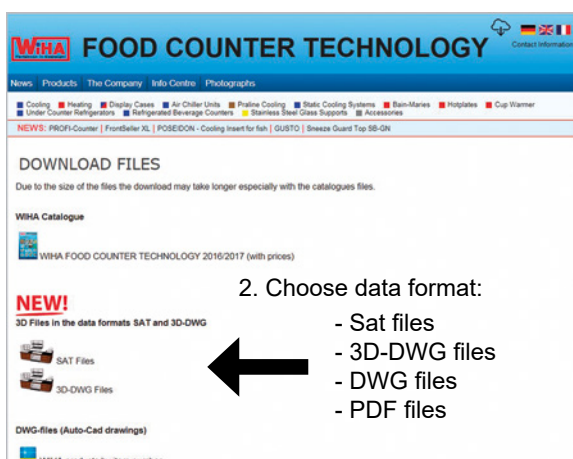

The files are formatted in SAT & DWG format that can be imported into a wide range of 3D CAD systems. Merely the surface colours have to be adjusted after the import.

3 Steps to the 2D/3D Models:

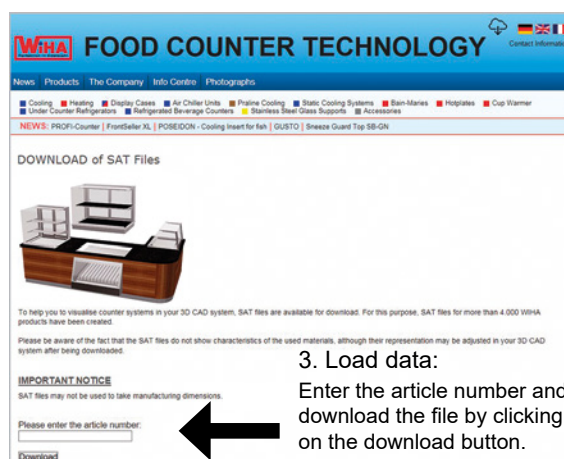

1. Visit our customer area by clicking the cloud logo at www.wiha-web.com and enter your credentials.

If you have not yet registered for our customer area, please request your credentials using our registration form.

2. Choose data format:

- Sat files
- 3D-DWG files
- DWG files
- PDF files

3. Load data:

Enter the article number and download the file by clicking on the download button.
